

IMPORT LICENSES SERVICES IN INDONESIA

We efficiently manage the processing of your import licenses to facilitate your product's entry into the Indonesian market.

EXPERT IMPORT LICENSES SERVICES

GENERAL LICENSE FOR IMPORT

You need an active NIB that serves as a general license with a registered importer number in INSW to import into Indonesia.

GENERAL IMPORTER IDENTIFICATION NUMBER (API-U)

To import goods into Indonesia, API-U is one of the essential licenses for conducting general trade in Indonesia with the imported products.

PRODUCER IMPORTER IDENTIFICATION NUMBER (API-P)

A specific license is needed for imported goods exclusively for internal production use. API-P is the license needed for imported goods under manufacturing or producing conditions.

IMPORTER'S REGISTERED NUMBER (API-PER)

Companies that import commodity products for export must have an Importer's Registered Number (API-PER). This number is essential for their operations and ensures compliance with import regulations.

QUOTA AND NON-QUOTA IMPORT PERMITS

Some goods, like agricultural products and textiles, require quota permits that limit the quantity imported annually. Non-quota permits are issued for goods not subject to such limitations.

WHY CHOOSE **INCORP** INDONESIA

Streamlined Processes	Our experts streamline customs processes, minimizing delays and simplifying import license acquisition.
Commitment to Compliance	We ensure your business complies with Indonesian customs and trade regulations, mitigating risks and avoiding legal issues.
